

## PARVINDER KAUR

Software Developer

parvinderbabar@gmail.com | East Meadow, New York  
[linkedin.com/in/parvinderbabar](https://www.linkedin.com/in/parvinderbabar) | [github.com/parvinderbabar](https://github.com/parvinderbabar)

### Technical Skills

**Languages:** JavaScript, HTML/CSS, SQL

**Technologies:** React, Next.js, PostgreSQL, Tailwind, Git, GitHub

### Software Development Experience/Projects

#### **JavaScript Frameworks**

**June 2024 - August 2024**

##### **CanCode Communities**

- Participating in a 12-week gaining hands-on experience in React and TypeScript concepts.
- React, HTML/CSS, Visual Studio, Git, GitHub.

#### **Frontend Developer**

**March 2024 – May 2024**

##### **Dallas Software Development team**

- **CookSmart Project:** Developed a full stack web application with a team of seven people using HTML, Tailwind CSS, Next.js, and Node.js. It is an inventory app where user can get recipes based on selected ingredients available in pantry. It will analyze the groceries you have on hand, can help build out a grocery list for things to get for meal prepping for the week, and give a detailed list of macros such as protein, carbs,  
<https://github.com/ParvinderBabar/GroceryManagement.git>
- JavaScript, HTML, Tailwind CSS, Visual Studio, Git, GitHub, Next.js, Node.js, Express.js, PostgreSQL, Tailwind CSS, JWT Authentication

#### **JavaScript Fundamentals**

**October 2023 – January 2024**

##### **CanCode Communities**

- Participated in a 12-week gaining hand-on experience in JavaScript Fundamentals.
- **ShowBuddy Project:** Developed a web application using HTML, Tailwind CSS, JavaScript, and Node.js. ShowBuddy is a web application that allows users to search for and explore information about TV shows, movies, and celebrities. It provides a user-friendly interface for discovering details about favorite entertainment content.  
<https://github.com/ParvinderBabar/ProjectShowBuddy.git>.
- Advanced JavaScript, APIs, HTML/CSS, Visual Studio, Git, GitHub.
- **Hangman Project:** Developed a Hangman game using HTML, CSS, JavaScript, and Node.js, implementing key concepts like variables, control flow, arrays, and DOM manipulation for an interactive user experience.  
[HANGMAN \(hangman-eight-theta.vercel.app\)](https://hangman-eight-theta.vercel.app)
- JavaScript, HTML/CSS, Visual Studio, Git, GitHub

### Professional Experience

#### **Web development Intern**

**June 2024 - July 2024**

##### **CODSOFT**

- Currently honing front-end development skills using HTML, CSS, and JavaScript. Enhancing problem-solving abilities and consistently meeting project deadlines.

#### **Assistant Manager**

**October 2018 - August 2021**

##### **LITTLE SHORT STOP, Kitchener, Canada**

- Streamlined banking, payroll, and scheduling processes, improving operational efficiency by 20% and ensuring financial accuracy by implementing automated systems.
- Enhanced staff performance by 15% and customer satisfaction ratings by 10% through effective management and compliance with health and safety regulations.

### Education

**Conestoga College Ontario, Canada**

**Post Graduate Diploma in Web Design and Development**

**March 2020**

GPA: 3.8
